Tom Edman Account Manager

June 1, 2007

Mr. Matt Bowman CES Environmental Services, Inc. 4904 Griggs Road Houston, TX 77021

Dear Matt,

Subject: SOLVENT PRICING ADJUSTMENT EFFECTIVE JULY 1, 2007

As you know, pricing for the solvent streams from PPG La Porte is subject to quarterly adjustment. Written notification of the adjustment is required 30 days prior to the adjustment date. Accordingly, this notification is being provided to detail the changes to solvent pricing which will become effective on July 1, 2007.

The last adjustment to solvent pricing occurred in October, 2005. Since that time, the cost of solvents to PPG has increased due to various market factors with no corresponding adjustment to pricing for CES solvent streams. As the CES solvent streams are a mixture of various solvents, tracking an agglomerated price based on individual stream components is not practical. Accordingly, PPG's actual purchase price for heptane is used as a broad indicator for these commodity solvents. Since March, 2006, the purchase price for heptane has increased 12%.

Accordingly, solvent stream pricing effective July 1, 2007 will be:

\$0.280/gal
\$0.280/gal
\$0.392/gal
\$0.078/lb
\$0.392/gal
\$56 per load
\$0.280/gal

If you have any questions, please feel free to contact me.

Best regards,

Tom Edman

Account Manager

#### TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

March 17, 2008

Mr. Matt Bowman CES Environmental Services, Inc. 4904 Griggs Road Houston, TX 77021

7004 2510 0003 9118 8210 <u>CERTIFIED MAIL</u> <u>RETURN RECEIPT REQUESTED</u> <u>RECYCLING-JKB-88429</u>

Re:

Recycling Notification for Zack System Corporation Solid Waste Registration Number 88429

Mail Log Number 8236

Dear Mr. Bowman:

The Industrial & Hazardous Waste Permits Section of the Texas Commission on Environmental Quality (TCEQ) has received the recycling notification that you sent on behalf of Zack System Corporation for wastes having the TCEQ waste codes 0087203H and 0101203H.

A review of the information currently on the Notice of Registration (NOR) for the Zack System Corporation site having the TCEQ solid waste registration number 88429 shows that no waste code numbers (including 0087203H and 0101203H) appear on the NOR. Please note that before the TCEQ can formally complete the processing of the recycling notifications for any wastes, including those corresponding to waste codes 0087203H and 0101203H, the NOR for Zack System Corporation must be properly updated to include those waste codes.

The TCEQ is therefore temporarily suspending the processing of the aforementioned recycling notification until the NOR for Zack System Corporation's site is appropriately updated. If that NOR is not so updated within fifteen days of the receipt of this letter, no further action will be taken toward its processing.

Please send all correspondence related to this matter to Mr. Jesse Boultinghouse at: Texas Commission on Environmental Quality, Waste Permits Division, MC-130, P. O. Box 13087, Austin, TX 78711-3087.

If you have any questions regarding this matter, please contact Mr. Boultinghouse at (512) 239-6412.

Sincerely,

M. Swet Covum

Scott Green, Project Manager

#### NOTES:

Matt, attached is a letter addressed to you regarding recycling notifications that you submitted on behalf of Zack System Corp. I am sending the letter to you at the behest of a fellow from CES who called late this morning inquiring about the status of the recycling notifications, and once he found out about the status, had requested that I FAX one of you a copy of the letter.

I was rather busy at the time that he called, and therefore declined to FAX the letter perhaps a bit rudely. In order to make up for that, I am now sending you the letter. Please extend my apologies to the person from your office. I did not get his name, but I believe that he may be of Indian or Pakistani origins.

### Acknowledgment of Recycling Notification

The TNRCC <u>acknowledges</u> the receipt of your notification pursuant to the requirements in 30 TAC §335.6. Please note that this is <u>not an approval</u> of your recycling activity/les. The requirements for industrial and/or hazardous wastes which are recycled are found at Title 30 TAC Section §335,24. As a reminder, your facility is responsible for insuring that:

The subject wastes(s) is/are managed in accordance with §335.4 (General Prohibitions) and §261.121 of the Texas Water Code; and

Should any changes occur or additional information comes to light concerning: (A) the composition of the waste(s), (B) the process by which the waste(s) is/are generated, (C) the manner in which the waste(s) is/are managed (including recycled) or (D) any other information referenced in §335.6, this information is to be immediately provided to the TNRCC.

Your notification has been forwarded to the Industrial and Hazardous Waste Permits Section of Record Services.
